DETAILED ACTION

EXAMINER'S AMENDMENT

1. The application has been amended as follows: in the specification page 1, line 7, after the year "2003" insert --- now U.S. Patent No. 6,768,421 ---.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: there are no prior arts teaching or suggesting of a computer readable medium containing executable code comprising:

code that develops a container fingerprint derived from gamma rays detected about a container;

code that compares said container fingerprint to a predetermined fingerprint corresponding to a known sample of radioactive or fissile material to determine whether the container fingerprint and the predetermined fingerprint heuristically match; and

code that indicates, in the event the container fingerprint and the predetermined fingerprint heuristically match, that the container contains the known radioactive or fissile material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
